

RIFLE AND PISTOL DATA WITH LEAD FREE BULLETS

Lead free rifle and pistol data can be found throughout the Reloading Data Center where the following brands of bullets appear. To recognize correctly the lead free bullets, the list of abbreviations below will lead you directly to the lead free data, as you peruse the data for a given cartridge. Once you are in the Reloading Data Center click on rifle or pistol, then the cartridge you wish to load, then click on Get Data, and all the data for that cartridge will appear on the screen. Simply look for the abbreviations of the companies listed below. Currently we have listings for four companies, Barnes, Hornady, Nosler and Sinterfire. The company abbreviations are BAR, HDY, NOS and SFIRE, respectively. Bullet abbreviations and descriptions are as follows:

Manufacturer	Bullet Abbreviation	Description
